

Offshore Europe 2009, Aberdeen

R.STAHL were glad to be part of the Offshore Europe exhibition in September. At stand 1350, we were well attended by a range of customers from the industry.

On display at the stand, we had the new Remote HMI with KVM box, our dome camera and a selection of heating and floodlight equipment provided by Tranberg. The CUBex from Electromach was also on display, showing a range of aluminium boxes combined with lights and switches in a fully customised solution. We are already busy planning our attendance for 2011 which is sure to be just as successful as this year's event.

New Product: Nitech Guardian Lamp for Zone 2

The Guardian, available via R.STAHL, offers truly portable and highly effective floodlight capabilities in a compact, lightweight and extremely robust design that can replace mains or generator powered traditional lighting. In addition to these benefits the Guardian is silent, ultra-safe (low voltage, no trailing cables) and pollution free, completely cool running and extremely environmentally 'friendly' (in annual use each Guardian can save over 1 tonne of CO2 p.a. as compared with traditional site/task lighting).

The product is ATEX certified for Hazardous Area use in Zone 2 for Gas and Dust. With it already being used across a range of industries, R.STAHL are proud to have this product within the lighting range.

To find out more regarding this product, please contact our sales team on 0121 767 6400 or email info@rstahl.co.uk quoting ref: GU01.

HMI Scrappage scheme, extended until March 2010!

Due to the unprecedented reception for the scheme, this has now been extended until 31st March 2010! If you have previously purchased a remote pc for hazardous areas, we are offering a scrappage scheme allowing you to return this and receive a discount off the retail price of the [new Remote HMI](#), released in April 2009. For full details, please [click here](#), or contact our sales team on 0121 767 6400.

Wrapping up as 2009 draws to a close

Despite the effects of the recession, we remain confident that R.STAHL will continue to excel as we move forward into 2010. Demand for our products remains high. As always, our strategy of excellent customer service and providing clients with a knowledgeable, dedicated and competitive company keeps us aiming high and achieving our goals. We were successful in winning the User Application of the Year award at HazardEX back in February and are now busy preparing to attend [HazardEx 2010](#).

As the global situation continues, the companies that focus on strong customer service with competitive solutions will perform well. R.STAHL will be one of those companies. Take a positive step and look at www.rstahl.co.uk to browse through what we can offer to you. Merry Christmas and best wishes for the remainder of the year from the team at R.STAHL, we look forward to doing business with you in 2010.
